

Re-board®

Re-board is an innovative **cardboard**: a panel for indoor and outdoor applications, **composed of a honeycomb cardboard nucleus sandwiched between thin white card**. Re-board is a very resistant cardboard, extraordinarily solid and able to withstand enormous weights. The boards can be customised with digital printing and create diversified solutions for floor stands for point of purchase, stands, promotions.

COMPOSITION	
Virgin Material	55% paper
Recycled material before-use	20% paper
Recycled material after-use	20% paper
Other materials	5%
SIZE	
SHEETS	
Dimensions	160 x 320 cm
Thickness	from 8 a 22 mm
SENSORIAL FEATURES	
Brightness	matte
Transparency	matte
Texture	rough
Hardness	rigid
Colours	Available in different colours
TECHNICAL FEATURES	
Density (Different for thickness)	From 0,1 a 0,2 kg/liter
Infiammability	Class 2 (Italy)

LITORAMA SPA

Via Quaranta 44, 20139 Milan - Italy
